IDEATION PHASE

BRAINSTORM AND IDEA PRIORITIZATION

PROJECT NAME	**Crude Oil Price Prediction**
DOMAIN NAME	COST ANALYSIS
TEAM ID	PNT2022TMID41737
TEAM LEAD	MOHAMED ASHRAF ALI M - 622019104041
TEAM MEMBERS	KAMALESH P - 622019104030 KALIDHAS S -622019104029 AKASH K - 622019104003

BRAINSTORM TOP 3 IDEAS

• Idea 1: It is useful for people with no prior knowledge.

For using an system or application we need some prior knowledge about it but our system can be used by people with no prior knowledge and easily they can predict and get the results

• Idea 2: This application allows all types of enterprises to use.

The application is designed in which it can be used by all kind of enterprises not only for the oil priced production and also for the predetermining the price.

• Idea 3: Uses of Previously Collected Data.

With the previously collected data, the user can enter the data, with this data be done by the previous data.

the AI can easily predict the future price of the crude oil & the error correction can
